Letter to Intended Parents

• About me

I want the intended parents to know that I'm excited to be able to help them and I hope that our relationship extends beyond just the pregnancy .

• Why I want to be a surrogate

I do personally know someone who struggled to bring for life . Not in the sense of being incapable to get pregnant, but she birthed a total of six children, and five of them were born still . Not in a non-sympathetic way but I've been blessed enough to not know what that feels like. I've been pregnant twice. I've given birth successfully twice and that's a gift in itself . Although yes, it is hard. It is difficult. It comes with its challenge , it's the worst pain I've ever felt. It's still a blessing nonetheless and I want to share that blessing with other people. I don't want to take my gift for granted. I know a lot of people, including myself like oh I more kids for me .... I do still have the capability of carrying so although I do not want anymore of my own little ones right now . I don't mind using my youth to help other people experience their own versions of parenting.

Lifestyle

• Personality

I'm very friendly and easy to get along with .

• Daily Routine

Breakfast for the kids, take my daughter to school and my son to daycare . Cleaning the house , doing chores , prepping for dinner . Reading and writing , getting the kids from school and daycare . Doing some form of an activity whether it's arts and crafts or going around the block to the playground . We are back in the house , doing homework while I finish dinner, eat dinner . We then bathe the kids , brush teeth , read a book . Put the kids to bed , have quality time with my husband , we bathe and then go to bed .

• Hobbies

Singing, cooking, writing , and drawing !

• Fun times with Family

Going to the park , a good movie with some homemade snacks , a new experience , and arts and crafts !

• Relaxation

It sounds so awkward, but I love a good nap with a face mask ..... as children we hate naps it seems like but we as adults we'd fight for one because why did we not like naps like what was wrong with us?
